

Michael S Airola

831-210-9163 | me@michaelairola.com

121 S Voluntario st. Santa Barbrara, CA 93103

Professional Summary

Full stack engineer dedicated to writing usable, maintainable and powerful code. Current position is Business Intelligence Developer at [Aspire Health](#).

Skills

- **Front End:**
 - I know Javascript! 2 years professional experience with component based life cycle frameworks (i.e. lit-element, but this falls in the same set of frameworks as React does). 4 years recreational experience with Node, Vanilla JS, React, ReactNative, Vue, and most other buzz-word frameworks!
- **Back End:**
 - Current professional experience (2 years) in backend systems have used Node and GoLang, but love playing around with anything from rust to rails.
- **Development Operations:**
 - A good CI/CD can go a long way! When 'git push master' triggers the testing and deployment processes I desire, life is good.
- **Database:**
 - Query Languages are fun! I prefer structure (I have ~ 3.5 years experience with SQL variants: mysql and tsql to be exact).

Work History

- BI Dev at [Aspire](#). Monterey, CA. 2021-present
- Full Stack Engineer at [Defie.co](#). Fremont, CA. 2018-2020
